# Creating Safe Environments in Schools and Communities

With **Stuart W. Twemlow, MD**

The national epidemic of school homicide, suicide and bullying calls urgently for attention from mental health and school professionals. Stuart W. Twemlow, MD, is internationally acclaimed for new methods of intervention that involve the inactive "bystanders" who fuel the bullying, and for re-conceptualizing bullying as symptomatic of wider community dysfunction. Dr. Twemlow will present his ideas, and invite those attending to explore interventions.

*Stuart W. Twemlow, M.D., Editor-in-Chief of the International Journal of Applied Psychoanalytic Studies, is a Member of the American College of Psychiatrists, the American Psychoanalytic Association, and a Distinguished Fellow of the American Psychiatric Association. He is Honorary Professor in the School of International and Political Studies, Deakin University, Melbourne, Australia.*
